

Excel Template:

Column Name		Create New Mouse Record
Strain		
	Possible Inputs	Text input (character length limit 250)
	Restrictions	Must be filled - cannot be empty
mouseID		
	Possible Inputs	Text input (character length limit 250)
	Restrictions	Must be filled - cannot be empty
ParentCage		
	Possible Inputs	- Text input (character length limit 250)
DOB		
	Possible Inputs	- F - M
DOD		
	Possible Inputs	- Sac'd/dead - Sacrificed - Dead - Breeding - Alive - None
CageNumber		
	Possible Inputs	- Text input (character length limit 250)
CageSetup		
	Possible Inputs	- Date input
Sex		
	Possible Inputs	- Text input (character length limit 250)
MouseType		
	Possible Inputs	- Text input to the shareable link (character length limit 250)
genotype_name		
	Possible Inputs	- Text input (character length limit 200)

		- eg. (Sm22 or TetO-cre or mTmG)
	Addition	To add another genotype copy and paste the genotype_name columns right next to the original
genotype_name2		
	Possible Inputs	- Text input (character length limit 200) - eg. (Sm22 or TetO-cre or mTmG)
Stud		
	Possible Inputs	- mouseID to the male parent
Dam		
	Possible Inputs	- mouseID to the female parent
Mate		
	Possible Inputs	- Text input (character length limit 250)
BreedingCage		
	Possible Inputs	- Text input (character length limit 250)
MouseStatus		
	Possible Inputs	- Text input (character length limit 250)
Notes		
	Possible Inputs	- Text input (character length limit 250)
